

SOLUTIONS PLUS CHEMICAL DATA

PM Brite-3 DESCRIPTION

PM BRITE-3 is a non-phosphoric, non-sulfuric and non-hydrofluoric aluminum cleaner effective in removing pulp and paper soils by dissolving and suspending the scale that is holding the soils to the equipment. **PM BRITE-3** is very effective in removing calcium salts, alumina salts and other acid sensitive and wettable soils. **PM BRITE-3** can be used to foam clean the wet end, and brighten Dryer Hoods after they have be degreased.

PROPERTIES

Appearance	Clear liquid
Ph	1.78 concentrated
Odor	Sweet acidic
Foam	High
Rinsing	Complete

DIRECTIONS

Wet End Foaming – Use at 10-50%

Dryer Hoods – Use at 10-30% through a foam generator
