PM ECO WASH

PM ECO WASH is a superior, ready to use liquid concentrate for tough cleaning applications in the pulp & paper mills. Dryer Sections especially benefit from using this heavy duty cleaner to remove soils from the Frames, Screens and Hoods. **PM ECO WASH** quickly emulsifies soils so the dryer screens and cans can be completely rinsed. **PM ECO WASH** may be applied through a foam generator, steam cleaner or manual process.

A low foam version (**PM ECO Wash LF**) is available for use through Helio Jet cleaning systems.

(Woodroom Chipper base)

Safe to Use on:

- Painted Surfaces does not Deteriorate paint
- Dryer Screens/Felts
- Dryer Frames and Hoods
- Greasy / Oily Floors

Cleans:

- Grease
- Oils
